**Sara Appelgren & Johan Willner (NEBRASKA)**

Sara Appelgren and Johan Willner have created a series of photographic portraits of people related to airport environments. They are designed to be seen at a distance, as well as in detail at close range. These images are exhibited in the Runway restaurant.

The hotel takes great pride in having a green profile. It permeates everything and has even influenced our choice of artwork. Art should be positively thought-provoking and engaging, as it is often about life and beauty, which risks being lost. Curator: Sune Nordgren

**Julian Opie**

Julian Opie has created an LED sculpture especially for the hotel. The sculpture represents a swarm of colorful people in motion. It is a floor-to-ceiling sculpture and is located in the hotel's Living Room. [www.julianopie.com](http://www.julianopie.com)
